BEST DAYS TO DO THINGS ... ACCORDING TO THE FARMERS ALMANAC!

According to Farmers' Almanac's long-standing "proprietary" formula,

when the moon is in the appropriate phase and place in the zodiac, it's widely believed that activities will be more fruitful or lead to improved results. The period between the new and full moon (first and second quarters) is considered as the best time to perform tasks that require strength, fertility and growth. The period between the full and new moon (third and fourth quarters) is best for harvesting, slowing growth, etc.

Click on the link below, then go to December 2020. This will give you the best days during December to cut your hair, host a party, bake, dig a post hole....and more! Interesting....
