Each building will be power washed and then all the windows and screened porches covered with plastic for painting. The walkways and stairwells will have paper taped on them. Please be careful in the walkways and on the stairs during this time. Your individual unit doors can remain closed for the painting of them.

The dumpsters may not be available during the painting. Please use the other two dumpsters in the complex during those times. **Prior to the start date for your building, please remove or cover the items on your screened porch and, if you have a balcony, all items must be removed from them. Please also remove all decorations and doormats from your door area.**

If you wish to have the interior of your screened porch painted by FCC, **you must have it done when your building is being done – no exceptions.** If you want this done, please contact Whitney at Coastal ([whitney@coastalrealtyfl.com](mailto:whitney@coastalrealtyfl.com), Phone: 904-471-6606, Ext. 115) to notify FCC. You can also get the paint at Sherwin Williams to do it yourself or have someone else paint it.

WHAT IS THE SHAPE OF  
A RAINDROP?

As we head into Summer and perhaps more rain, I thought you might be interested in this information about raindrops!

Are raindrops tear-shaped when they fall from the sky? Turns out there's a lot more to raindrops than meets the eye! Here's what science has to say about raindrops. Actually, raindrops come in four different shapes, depending on their size.

Small raindrops, one millimeter or less in size, are held together by surface tension, so they're perfectly round. Once they reach the two-millimeter size, they start to distort a little bit, looking something like a hamburger bun — flat on the bottom, rounded on the top. At three millimeters, they distort even more as they fall, forming a kidney shape.

The largest raindrops, 4.5 millimeters and above,

don't resemble drops at all. Instead, because of the way they stretch as they fall, they look a lot like a pair of earmuffs, with two drops of water to either side, connected by a thin band of water. When raindrops get too large, they break apart into smaller drops, forming into one of the four shapes.

"13th" HOA PAYMENT  
ASSESSMENT

If you have not made your 13th HOA payment (\$396.00), please be reminded that it is due by May 26th. This one-time payment is to help defer the cost of our complex-wide painting project. This payment cannot be made through direct deposit (if you are set up for that method of payment for your HOA), but needs to be made in a separate payment to Coastal and noted that it is for the "13th" HOA payment. You can bring this payment to Linda at the clubhouse office (Thursdays, between 1-5 PM), or send it to Whitney Buss' attention at Coastal Realty, 3942 SR A1A S, St. Augustine FL 32080. If you have any questions, please reach out to Whitney by e-mail (whitney@coastalrealtyfl.com)
